

Jackson Library

Students in courses offered by the Department of Education of Lander University have access to the resources of the Jackson Library. Many of these resources are available on-line at <http://www.lander.edu/library>. These on-line resources are available 24/7.

From that page you can click on the *Online Catalog*. Although the campus is within an easy driving distance of the courses, because of the busy schedule of the students, the library will be glad to mail books to students.

If you click on *Electronic Databases*, then on *Off-Campus*, then click on a database, and follow the directions, you will be able to use the periodical and newspaper electronic databases. In order to be considered a Lander student, the students must be entered into the Lander student database. Please check with the Department of Education to make sure that this step has been completed. Four of special interest to education students are

[Academic Search Premier](#)  The world's largest academic multi-disciplinary database, *Academic Search Premier* provides full text for more than 4,500 publications, including full text for more than 3,600 peer-reviewed journals.

[ERIC \(Educational Resources Information Center\)](#)  Provides citations, abstracts, and links to full-text articles in the field of education. Includes linked full-text for some articles.

[Expanded Academic ASAP](#)  From arts and the humanities to social sciences, science and technology, this database meets research needs across all academic disciplines. Access scholarly journals, news magazines, and newspapers - many with full text and images!

[Professional Development Collection](#)  Designed for professional educators, this database provides a highly specialized collection of more than 550 high quality education journals, including more than 350 peer-reviewed titles.

In addition, we would be happy to provide bibliographic instruction to your classes either at the Jackson Library or the classroom site.
