Documents that you provided indicate that one of your household members is a member of the clergy. Federal regulations require that we confirm any untaxed income received such as housing, food, and other living allowances paid from January 1, 2006 – December 31, 2006. You must include any cash payment, as well as the cash value of benefits received. For example, if a parsonage is provided, what is the fair value of rent for a year to live there?

Please provide the following information:
