

Dial-Up Instructions (Modem Off-Campus Access)

Please note that you will need your Lander email username and password to successfully connect to the Internet.

To set up your home computer or laptop to connect to the Internet, follow the steps listed below.

Windows XP Instructions:

1. Open the **Control Panel** (Start - Control Panel)
2. Double-click on **Internet Options**
3. Click on the **Connections** tab
4. Press the **Internet Connection Setup** button
5. Press **Next**
6. Select **Connect to the Internet** and press **Next**
7. Select *Set up my connection manually* and press **Next**
8. Select *Connect using dial-up modem* and press **Next**
9. Type *LU* for the ISP name and press **Next**
10. Type **388-8555** for the telephone number and press **Next**
11. Select *user preference* and press **Next**
12. Enter your *Lander Email username and password* information and press **Next**
13. Check the box to *Add a shortcut to the desktop* and press the **Finish** button
