

BIOLOGY – MEDICAL TECHNOLOGY

Whether you wish to become an x-ray technician or a nursing assistant, the medical industry is constantly seeking qualified professionals. Different careers in medical technology require different certifications. Learning to operate x-ray and sonogram machines can both boost your training and your salary. As a medical transcriptionist or medical assistant, you can still join the health care industry without spending years in medical school. According to the U.S. Department of Labor, the health care industry is projected to grow very quickly in the next few years.
