

Lander University's College of Business & Public Affairs – Department of Business Administration offers a Bachelor of Science degree.

BUSINESS ADMINISTRATION- HEALTH CARE MANAGEMENT

This is an exciting time for healthcare management. Healthcare is changing more rapidly than almost any other field. The field is changing in terms of how and where care is delivered, who is providing those services, and how that care is financed. Healthcare management requires talented people to manage the changes taking place. In their roles, healthcare executives have an opportunity to make a significant contribution to improving the health of the communities their organizations serve.

The purpose of health care management is to integrate the fundamentals of business administration with a comprehensive knowledge of the health care delivery system. The emphasis is designed to enable qualified students to acquire the skills and knowledge to assume management positions within various settings of the health care delivery system.
